IFRA Listing - Lime Essential Oil

Percentage CATEGORY PRODUCTS of Usage

1 Products applied to lips 2 Products applied to the axillae 3 Products applied to the face/body using fingertips 4 Products applied to the face/body using fingertips 5 € 0.7 % 4 Products related to fine fragrances Froducts applied to the body using the hands (palms), primarily leave- 5 A on (Body lotion) Products applied to the face using the hands (palms), primarily leave- 5 B (Face moisturizer) Products applied to the hands using the hands (palms), primarily leave- 5 C on (Hand cream) Products applied to babies using the hands (palms), primarily leave- 5 C on (Hand cream) Products applied to babies using the hands (palms), primarily leave on 5 B (Baby cream, oil, talc) 6 Products with oral and lip exposure 7 A Rinse-off products applied to the hair with some hand contact 7 B Leave-on products applied to the hair with some hand contact 8 Products with significant anogenital exposure, primarily rinse-off Products with body and hand exposure, primarily rinse-off No Restrictions Household care products with mostly had contact (excluding 10 A aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11 A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11 Skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or 12 insignificant transfer to skin			
3 Products applied to the face/body using fingertips ≤ 0.7 % 4 Products related to fine fragrances ≤ 0.7 % Products applied to the body using the hands (palms), primarily leave- on (Body lotion) ≤ 0.7 % Products applied to the face using the hands (palms), primarily leave- on (Face moisturizer) ≤ 0.7 % Products applied to the hands using the hands (palms), primarily leave- on (Hand cream) ≤ 0.7 % Products applied to babies using the hands (palms), primarily leave on (Baby cream, oil, talc) ≤ 0.7 % 6 Products with oral and lip exposure No Restrictions 7A Rinse-off products applied to the hair with some hand contact ≤ 0.7 % B Leave-on products applied to the hair with some hand contact ≤ 0.7 % Products with significant anogenital exposure, primarily rinse-off ≤ 0.7 % Products with body and hand exposure, primarily rinse-off No Restrictions Household care products with mostly had contact (excluding aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure No Restrictions Other air care products not intended for direct skin contact, minimal or	1	Products applied to lips	<u><</u> 0.7 %
4 Products related to fine fragrances Products applied to the body using the hands (palms), primarily leave- on (Body lotion) Products applied to the face using the hands (palms), primarily leave- on (Face moisturizer) Products applied to the hands using the hands (palms), primarily leave- on (Hand cream) Products applied to babies using the hands (palms), primarily leave on (Baby cream, oil, talc) Products with oral and lip exposure A Rinse-off products applied to the hair with some hand contact Products with significant anogenital exposure, primarily rinse-off Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	2	Products applied to the axillae	<u><</u> 0.7 %
Products applied to the body using the hands (palms), primarily leave- on (Body lotion) Products applied to the face using the hands (palms), primarily leave-on (Face moisturizer) Products applied to the hands using the hands (palms), primarily leave- on (Hand cream) Products applied to babies using the hands (palms), primarily leave on (Baby cream, oil, talc) Products with oral and lip exposure A Rinse-off products applied to the hair with some hand contact Products with significant anogenital exposure, primarily rinse-off Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	3	Products applied to the face/body using fingertips	<u><</u> 0.7 %
SA on (Body lotion) Products applied to the face using the hands (palms), primarily leave-on (Face moisturizer) Products applied to the hands using the hands (palms), primarily leave-on (Hand cream) Products applied to babies using the hands (palms), primarily leave on 5D (Baby cream, oil, talc) Products with oral and lip exposure A Rinse-off products applied to the hair with some hand contact ≤ 0.7 % Beave-on products applied to the hair with some hand contact ≤ 0.7 % Products with significant anogenital exposure, primarily rinse-off Products with body and hand exposure, primarily rinse-off No Restrictions Household care products with mostly had contact (excluding 10A aerosol/spray products) Household care products with mostly had contact (household aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure No Restrictions Other air care products not intended for direct skin contact, minimal or	4	Products related to fine fragrances	<u><</u> 0.7 %
Products applied to the face using the hands (palms), primarily leave-on Froducts applied to the hands using the hands (palms), primarily leave-on (Face moisturizer) Products applied to the hands using the hands (palms), primarily leave-on (Hand cream) Products applied to babies using the hands (palms), primarily leave on (Baby cream, oil, talc) Products with oral and lip exposure No Restrictions Rinse-off products applied to the hair with some hand contact Products with significant anogenital exposure, primarily rinse-off Products with body and hand exposure, primarily rinse-off Products with body and hand exposure, primarily rinse-off No Restrictions Household care products with mostly had contact (excluding aerosol/spray products) No Restrictions Household care products with mostly had contact (household aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to to the skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or		Products applied to the body using the hands (palms), primarily leave-	< 0.7 °/
Products applied to the hands using the hands (palms), primarily leave- 5C on (Hand cream) Products applied to babies using the hands (palms), primarily leave on (Baby cream, oil, talc) Products with oral and lip exposure 7A Rinse-off products applied to the hair with some hand contact 7B Leave-on products applied to the hair with some hand contact 8 Products with significant anogenital exposure, primarily rinse-off 9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding 10A aerosol/spray products) Household care products with mostly had contact (household 10B aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	5A	on (Body lotion)	<u>< </u> 0.7 %
Products applied to the hands using the hands (palms), primarily leave- 5C on (Hand cream) Products applied to babies using the hands (palms), primarily leave on (Baby cream, oil, talc) Products with oral and lip exposure No Restrictions A Rinse-off products applied to the hair with some hand contact Eave-on products applied to the hair with some hand contact Products with significant anogenital exposure, primarily rinse-off Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding aerosol/spray products) Household care products with mostly had contact (household aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or		Products applied to the face using the hands (palms), primarily leave-on	< 0.7 %
Products applied to babies using the hands (palms), primarily leave on (Baby cream, oil, talc) 6 Products with oral and lip exposure 7A Rinse-off products applied to the hair with some hand contact 7B Leave-on products applied to the hair with some hand contact 8 Products with significant anogenital exposure, primarily rinse-off 9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding 10A aerosol/spray products) Household care products with mostly had contact (household aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	5B	(Face moisturizer)	<u><</u> 0.7 %
Products applied to babies using the hands (palms), primarily leave on 5D (Baby cream, oil, talc) 6 Products with oral and lip exposure 7A Rinse-off products applied to the hair with some hand contact 7B Leave-on products applied to the hair with some hand contact 8 Products with significant anogenital exposure, primarily rinse-off 9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding aerosol/spray products) No Restrictions Household care products with mostly had contact (household aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or		Products applied to the hands using the hands (palms), primarily leave-	.070/
5D (Baby cream, oil, talc) 6 Products with oral and lip exposure 7A Rinse-off products applied to the hair with some hand contact 7B Leave-on products applied to the hair with some hand contact 8 Products with significant anogenital exposure, primarily rinse-off 9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding aerosol/spray products) Household care products with mostly had contact (household aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	5C	on (Hand cream)	<u><</u> 0.7 %
SD (Baby cream, Oil, taic) 6 Products with oral and lip exposure 7A Rinse-off products applied to the hair with some hand contact 50.7 % 8 Products with significant anogenital exposure, primarily rinse-off 9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding aerosol/spray products) Household care products with mostly had contact (household aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or		Products applied to babies using the hands (palms), primarily leave on	.070/
7A Rinse-off products applied to the hair with some hand contact 7B Leave-on products applied to the hair with some hand contact 8 Products with significant anogenital exposure, primarily rinse-off 9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding 10A aerosol/spray products) Household care products with mostly had contact (household 10B aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	5D	(Baby cream, oil, talc)	<u><</u> 0.7 %
TB Leave-on products applied to the hair with some hand contact 8 Products with significant anogenital exposure, primarily rinse-off 9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding aerosol/spray products) No Restrictions Household care products with mostly had contact (household aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	6	Products with oral and lip exposure	No Restrictions
8 Products with significant anogenital exposure, primarily rinse-off 9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding 10A aerosol/spray products) No Restrictions Household care products with mostly had contact (household 10B aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	7A	Rinse-off products applied to the hair with some hand contact	<u><</u> 0.7 %
9 Products with body and hand exposure, primarily rinse-off Household care products with mostly had contact (excluding 10A aerosol/spray products) Household care products with mostly had contact (household 10B aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	7B	Leave-on products applied to the hair with some hand contact	<u><</u> 0.7 %
Household care products with mostly had contact (excluding 10A aerosol/spray products) Household care products with mostly had contact (household 10B aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	8	Products with significant anogenital exposure, primarily rinse-off	<u><</u> 0.7 %
10A aerosol/spray products) Household care products with mostly had contact (household 10B aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	9	Products with body and hand exposure, primarily rinse-off	No Restrictions
Household care products with mostly had contact (household aerosol/spray products) ≤ 0.7 % Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or		Household care products with mostly had contact (excluding	
10B aerosol/spray products) Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	10A	aerosol/spray products)	No Restrictions
Products with intended skin contact but minimal transfer of fragrance to 11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or		Household care products with mostly had contact (household	.070/
11A skin from inert substrate without UV exposure Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	10B	aerosol/spray products)	<u><</u> 0.7 %
Products with intended skin contact but minimal transfer of fragrance to 11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or		Products with intended skin contact but minimal transfer of fragrance to	
11B skin from inert substrate with potential UV exposure Other air care products not intended for direct skin contact, minimal or	11A	skin from inert substrate without UV exposure	No Restrictions
Other air care products not intended for direct skin contact, minimal or		Products with intended skin contact but minimal transfer of fragrance to	
·	11B	skin from inert substrate with potential UV exposure	No Restrictions
12 insignificant transfer to skin No Restrictions		Other air care products not intended for direct skin contact, minimal or	
	12	insignificant transfer to skin	No Restrictions

The IFRA standards are based on assessments by the panel of experts of The Research Institute for Fragrance Materials.

It is the responsibility of customers to insure the safety of products manufactured by them.
